Russian ccTLDs on the Move

Domain Names Registration Rules

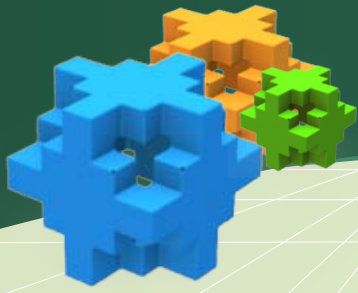

Working group since November 15th, 2010 – Council's mandate to prepare a new, single version of the domain name registration rules.

Main directions:

- ❖ Same rules for .RU and .PФ national domains
- ❖ Precise description of the domain name registration service
- ❖ Accreditation agreement will include requirement to keep logs for 3 years
- ❖ Increase registrant's data quality
- ❖ Heading for a greater cleanness of the TLD zone
- ❖ Higher quality services for registrars
- ❖ Stop-list management

Current status:

- ❖ Reviewed by different institutions

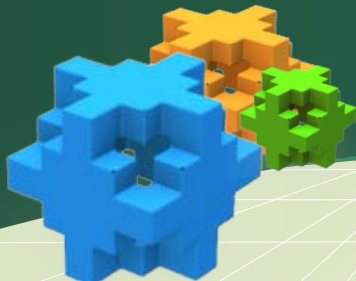

Strategic Challenges

- ❖ Acts of legal abuses – capturing domain names via trade mark application
- ❖ Nascent internet NGO's, no consolidated initiatives;
- ❖ Botnets, DDOS, phishing, viruses

Russia is not unique

Projects ongoing

- 
- ❖ “Domains of Russia” statistical web site <http://statdom.ru>
 - To provide unique statistics relating to the Russian domain market, domain names usage, web and user platforms for .RU and .РФ domain zones;
 - To design a valuable data analysis and feedback tool in regard to management of the national domain space
 - ❖ “Virtual registrar”
 - Outsourcing the technical registration platform with easy integration to the existing backend
 - ❖ Online game “Learn how internet works and control it” (Обучающая онлайн-игра «Изучи интернет – управляй им») (igrainternet.ru)
 - share knowledge about how internet works in terms of technology, address space, management basics. Targeted to higher school graduates and university students.
