*"In managing, promoting and protecting (the Internet's) presence in our lives, we need to be no less creative than those who invented it. Clearly, there is a need for governance, but that does not necessarily mean that it has to be done in the traditional way, for something that is so very different".*

Mr. Kofi Annan, Global Forum on Internet Governance, New York, USA, March 24, 2004

*«Регулирование, развитие и защита присутствия интернета в нашей жизни требует от нас не меньшей изобретательности, чем понадобилась его создателям. Очевидно, что интернетом необходимо управлять, но это не означает, что к чему-то столь особенному нужно подходить с традиционных позиций.»*

Г-н Кофи Аннан, Глобальный Форум по вопросам управления интернетом, Нью-Йорк США, 24 марта 2004 г.
